

CUSTOM MADE CURTAINS

EVERY THING YOU NEED TO KNOW | NOT MUCH REALLY

Do It Your Self - Fast Easy Save

Choose your Style and Measure

Choose the style of curtain you would like.

Eyelet and Reverse Tab styles are for rods.

Pinch Pleat (pleats sewn into the top) and **Pencil Pleat** (gather style) are for Tracks or Rods with large metal rings.

Measure Your Height:

Measure from the top of the track or rod down to where you want the curtain to stop. It does not matter what type of rod or track you have always measure from the top. Its ok if you haven't installed it yet.

Measure your width:

Measure from the end of the rod to the other. Do not include the finials (end balls) For a track measure from one end to the other. If the track bends back to the wall measure this also. If the track has a little arm in the middle that pulls one curtain in front of the other when the curtains are closed measure this also.

TIP: Your curtains will be made to fit your rod or track. Do not give us the finished size of the curtain.

THE MEASUREMENTS YOU NEED:

Height in cm:

Width in cm:

A Little Piece of fabric Love

It is always hard to see what a colour really looks like from a photo so we suggest ordering some fabric samples.

TIP: If you want to see how much light the fabric blocks out turn the torch on your phone on and hold it directly against the back of the fabric. This will give you an idea. No natural light will be anywhere near this direct. So a tiny bit coming through will be almost complete blackout.

Keeping the largest items in a room neutral can make you a master of flexible style.

When selecting the colour for your curtains keep it simple.

Neutral colours will always stand the test of time. Colours come and go. If you stick with a neutral colour you can always add a coloured cushion or throw to keep your decor fresh and up to date.

It is easy to get caught up in making sure the colour matches your walls or duvet cover perfectly or your carpet. But in reality this is not true. Matchy Matchy will not make your day any more exciting. It will only cause you stress trying to find the perfect colour.

Matchy Matchy is for Kath and Kim!

TIP: You can make any neutral work with any neutral. So give your brain a breather and pick one you like and throw away matchy matchy. It is over rated.

Blockout light in Bedrooms & TV Rooms. Blockout heat & Cold in rooms with direct sunlight and large windows. Sheers for light filter & ambience.

FAQ

THE IMPORTANT STUFF

Delivery Time

7 - 10 Days. FAST

Your curtains will be delivered directly to your door from our stitching factory. They will be pressed before they leave our factory. Whilst we try to deliver them un-creased, they have been packaged in a box. You will need to give them an iron if your on the fussy side! Most creases fall out over a couple of weeks.

Shipping Cost

\$9.95 Per Window. EASY

To make it easy to calculate it's \$9.95 per window delivered to your door. Your curtains will be left in a safe place if there is a spot to leave them otherwise a card will be left. You will be emailed a tracking number so you know when they will arrive.

What if I don't like the quality?

You will. If you don't return them.

If you don't like the quality of our sewing we will re make them for you. It hasn't happened before but there is always a first time.
